

Our primary motto is to produce a graduate student who is liberal, logical, punctual, discipline, optimistic, responsible citizen, steeped with scientific and positive approach of life, free from any type of superstitions, has the ability to stand against any form of social inequality and injustice respecting the law of the land.

B. Sc. Programme Outcome

On successful completion of the program students will have:

- In-depth knowledge and ability appropriate to undertake further study and research in a field of science.
- Ability to develop, conduct and manage a research project.
- Critically and independently reflect and analyze project results.
- Ability to communicate a convincing and reasoned scientific argument at a level and style appropriate to the audience and to report scientific findings in an oral and substantial written format.
- Ability to work on an advanced scientific activity both autonomously and collaboratively.
- Awareness of professional practice in the relevant discipline and an understanding, appreciation and respect for appropriate conduct and practice.
- Generic skills, theoretical knowledge, and specialized practical skills to either gain employment in their relevant discipline or to succeed in further study such as Higher Degrees by Research.
